

ABOUT ME

I am a dedicated computer science student currently in my sixth semester, with a strong focus on web development. My primary expertise lies in the MERN stack (MongoDB, Express.js, React.js, and Node.js), which I have been learning independently through YouTube tutorials and hands-on projects. Over the summer, I completed an internship in web development, where I gained experience working with Laravel, further broadening my understanding of backend technologies. Despite this experience, my core passion and focus remain firmly in MERN stack development. I am eager to leverage my skills in a dynamic role where I can continue to grow and contribute to innovative web solutions.

EXPERIENCES

- Frontend Developer Remote Internship (YoungDevIntern)
- Web development with Laravel Internship (Ij technology)

EDUCATION

Punjab University Jhelum Campus

BS in Computer Science CGPA: 3.50/4.00
From 2021 To 2025 (Expected)

Govt Postgraduate College Jhelum

Inter in Computer Science (ICS) Marks: 947/1100
From 2019 To 2021

Govt M.C Islamia HSS Jhelum

Metric (Computer Science) Marks: 895/1100
From 2017 To 2019

TECHNICAL SKILLS

- **Languages**
HTML, CSS, JavaScript, Php
- **Frame Works**
Bootstrap, Tailwind, React, Express, Laravel (Intermediate)
- **Design Tool**
Figma (Intermediate)
- **Version Control System**
Git/GitHub

PROJECTS

- **React**
Chat Application Using React, E-Commerce Web-App
- **Frontend**
Portfolio Design, Honey Shop web Design, Washing Machine Repair Shop etc,
- **Php**
Forum Website
- **Laravel**
Student Management System
